

## How to Transfer iTunes Media Files to Nokia Lumia 730/735/830

### Nokia Flagship Lumia 830, Dual-SIM Lumia 730, and 4G Lumia 735

At IFA 2014, Nokia has unveiled the new Windows Phone 8.1 models including Lumia 830, Lumia 730 and Lumia 735 to the world. Featured with a 10-megapixel PureView camera and 8.5mm thickness, Nokia Lumia 830 is announced as an "affordable flagship" as well as the thinnest and lightest Lumia phone yet. And for Lumia 730 series of phones, the magnanimous focus is the ubiquitous "selfies" with a 5MP wide-angle front camera and a 6.7MP rear camera along with the unique Selfie app pre-installed on the devices. The difference between Nokia Lumia 730 and Lumia 735 is that the former is a dual-SIM variant and supports 3G, while the latter comes with 4G LTE support. For people who like to take selfies, the Lumia 730 and 735 would be nice choices. According to the official announcement, all these three new Lumia models will be on sale in September 2014.
