## Can We Play iTunes Movies on Amazon Fire TV?

There are so many channels supported by Amazon Fire TV. So large collections of movies, TVs, songs or other medias can be selected on Amazon Fire TV. But can we play the movies or songs we purchased from iTunes store on Amazon Fire TV?

All iTunes downloaded movies/TV shows are copy protected by Apple's Fairplay DRM protection, which prevents us watching the iTunes content on any other Non-Apple devices. To play the iTunes movies on Amazon Fire TV, we have to remove the iTunes DRM protection at first. TunesKit for Mac is the highly recommended iTunes DRM Removal application to remove DRM from iTunes purchased and rented movies/TV shows. By adopting the unique DRM removing technologies, TunesKit can actually strip iTunes DRM and convert DRMed M4V videos to unprotected MP4 format with 100% preserved quality.

## Remove DRM From iTunes Movies For Playing on Amazon Fire TV

### Step 1 Add iTunes M4V Videos

Click "Add Files" icon, then TunesKit will find the iTunes library folder for you automatically, just choose the iTunes movie files you want to remove DRM from, then click "Ok". You can also drag and drop the iTunes videos to any blank space of the TunesKit window.

**Note:** To use TunesKit for Mac successfully, you have to run the Mac OS X 10.8 or later and installed the newest iTunes.

### Step 2 Manually Choose Output Audio Tracks, Subtitles, Dolby 5.1 Surround

Highlight the movie files you imported, then you will get a Settings icon on the right, just click it and get a list of audio tracks, subtitles if the original movies contains multiple language tracks. Choose the one you need for the output videos.

### Step 3 Start Removing iTunes DRM Protection

Click "Convert" button to start converting M4V to MP4 format. After the conversion finished, you can find the target file under the "Converted" tab or clicking "Open" button.

## How to Set Up Amazon Fire TV For Playing iTunes Movies

It's very easy to set up Amazon Fire TV. For watching online Channels or the content purchased from Amazon store, you can simply set up the Amazon Fire TV with 3 steps only.

### Step 1 Connect Amazon Fire TV to your HDTV via HDMI Connection

**Step 2** Connect Amazon Fire TV to the internet, then login with your Amazon account to play something you purchased on Amazon.

**Step 3** Now, you can enjoy anything on Amazon Fire TV with big screen freely.

Amazon Fire TV works as a media steaming device, it can also stream all contents stored on Amazon tablets. So to watch the converted iTunes movies on Amazon Fire TV more easily, we can [transfer the iTunes movies to Amazon Kinle Fire HD](#) or other tablets at first. However, some people don't have Amazon tablets on hand, then we will recommend you install Plex server to transfer the iTunes movies to Amazon Fire TV.

1. Connect to your TV

2. Connect to the Internet

3. Enjoy
