

How to Watch iTunes Movies on Samsung Smart TV 2014?

Posted by Andy Miller on August 07, 2014 5:15:05 PM.

Samsung Smart TV - Revolution on Online TV Watching

Smart TV is a new hot concept after the smart phone, smart watch. And **Samsung Smart TV** is the leader in this area, which sets a new standard to Online TV Platform. Samsung Smart TV was released in 2013 and had made updates in 2014. Samsung Smart TV is dedicated to bring you a brand new experience of watching online TV shows, a brand new method to control your digital and business lives. With Samsung Smart TV, you will enter a whole new world of home entertainment, because it not only brings you the best TVs, but also let you chat, surf and share from the comfort of your sofa.

It seems Samsung Smart TV is powerful and can do everything we want. But if this smart TV can play our iTunes purchased or rented movies/TV shows?

As iTunes videos are encrypted by [Fairplay DRM protection](#), and not allowed to play on any Non-Apple devices. So it absolutely can't be played on Samsung Smart TV directly. In this article, we want to introduce several methods to sync your iTunes movie to Samsung Smart TV.

Bypass the Fairplay DRM Protection and Store the iTunes movie on USB Port

If you have got a Samsung Smart TV, you will see that there is a USB port designed on this smart TV. It was provided for users to connect the TV with USB devices, and import the external content. To play iTunes purchased or rented movies on Samsung Smart TV, we can take use of this USB port. But the first thing we should do is removing the Fairplay DRM from iTunes movies.

Firstly, you should choose a suitable DRM removal tool for help. I recommend you to use [TunesKit iTunes DRM removal for Mac](#). Here are the reasons.

- 1 It's unlike other advertised DRM removal software. TunesKit for Mac is actually strip the iTunes DRM from all kinds of iTunes videos.
- 2 TunesKit iTunes DRM Media Converter for Mac also converts iTunes drm M4V videos to DRM-free MP4 format, which is the most universal video format to fit all mobile devices, TV sets and media player software.
- 3 TunesKit will keep the original quality 100%. You don't need to worry about Subtitles, audio tracks, or 5.1 surround lost, because all these data will be retained well in the output MP4 videos.
- 4 It's easy-to-use and works in 20x faster speed

As soon as you converted the iTunes movies with TunesKit DRM media converter, you can put the converted DRM free MP4 videos to the USB port. Then connect the USB port with Samsung Smart TV. It becomes easy to watch the iTunes movie on Samsung Smart TV now.

Watch iTunes Movie on Samsung Smart TV via HDMI connection on Mac Laptop

This Method works only for the users who have a new Mac Laptop, which has HDMI connection. Firstly, make sure your Mac laptop is authorized to play the iTunes movie. As we all know, the movies we downloaded from iTunes can be authorized on up to 5 devices only, including at least one Mac computer. Secondly, connect your Mac laptop to the Samsung Smart TV via HDMI connection. At last, you can play the iTunes DRM protected movies on the Mac laptop, then you can watch it on Samsung Smart TV.

Note: iMacs haven't the HDMI connection.

Watch iTunes Movies on Samsung Smart TV via Apple TV 3

Apple TV is a perfect way for streaming iTunes movies/TV shows to other TV set. Connect the Samsung Smart TV with your Apple TV, then play the iTunes movie using Air play. Then movie content will be shown on the Smart TV with original quality.

Note: Due to the DRM protection, there are some HD rental movies cannot be played on Apple TV neither.

Some people will asked that could I steam the iTunes movie via Plex server. The answer is "You can't." Plex does state clearly that it cannot play itunes content. But if you have got a plex server, you can refer to this page: [How to steam iTunes videos with Plex server?](#)
